# 6" PIPE THREADING MACHINE

## LARGE-DIAMETER PIPE SOLUTION WITH QUIET & 2-SPEED EFFICIENCY

This machine offers quiet operation, ideal for noise-sensitive environments. Equipped with a powerful 2-speed transmission, it efficiently handles large-diameter pipes. The hammer chuck ensures a secure hold, while the notch-type die head provides low cutting resistance for optimal threading. Easily adjust thread size, length, and diameter with microfine controls for precise results.

### MODEL 6590 FEATURES:

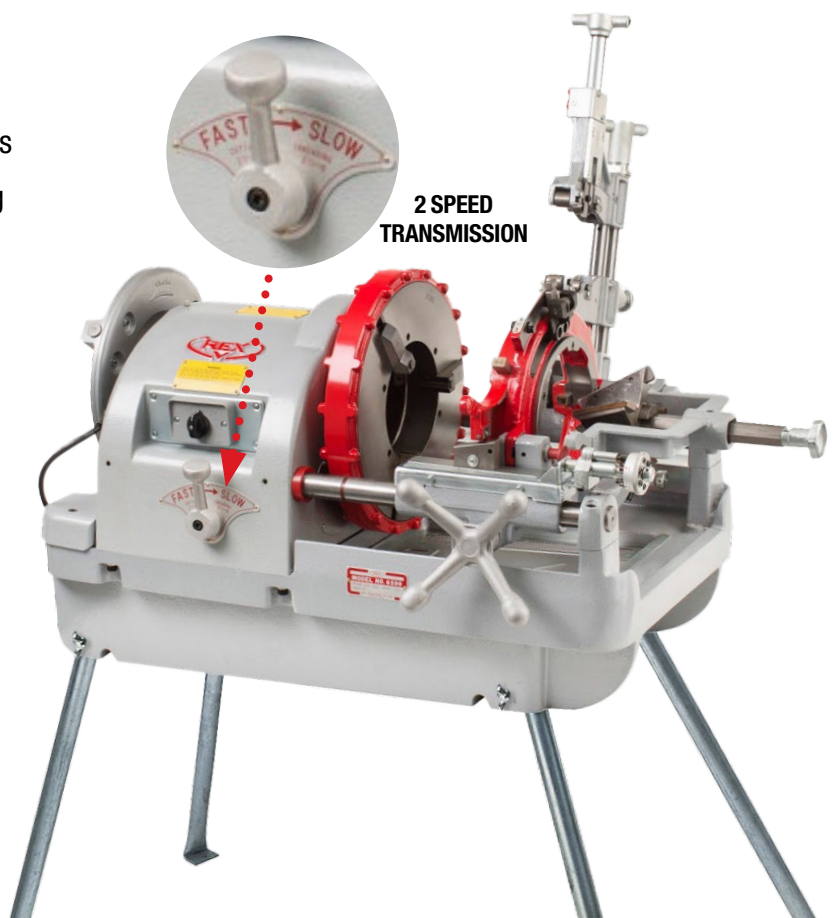

- Quiet operation for sensitive environments
- 2-speed transmission for faster threading
- Hammer chuck holds pipes securely
- Notch-Type head for smoother threading
- Easy adjustments for precise threading
- **Made in JAPAN**
